—Bixty Men on Their Trail.

San Francisco, Nov. 26 .- The railroad officials have telegraphed from here offering \$2,000 for the capture of each of the cowboys who robbed the train near Gage City. station, on Saturday last, and \$10,000 for the capture of the whole party. General Crook has ordered a company of cavalry to be sent out in pursuit from Fort Bayard and Fort Huachuca. The robbers did not molest the passengers, and the shooting of Engineer Webster is believed to have been accidental, when they fired a volley over the train. Over sixty men are now out on their trail. The robbers are described as being thoroughly familiar with their business. The time and place were judiciously selected, and had they stopped the train the evening previous, would have secured nearly \$160.000. The leader of the gang is supposed to be the noted desperado, John Price, alias "Johnny Over the Fence."

FOUND.—A sure thing: The Improved Wallace Windmill. We present this windmill to public Indice fully believing that it is superior in every respect to any mill ever presented before for your consideration. The power can be applied to driving any kind of machinery, as well as pumping with but slight additional expense. It is built is a substantial frame with Wenty-four braces, under a good roo', a d is surrounded by a series of movable shutters, and is regulated to run at any speed in a high gale; also can be closed off when not in use. It never changes position, but receives the wind from all directions alike, thereby avoiding the week and wear to which other mills are constantly subjected in keeping headed to the air current. The fans of the wheel present three times as much surface to the air as other mills, besides being so arranged that the air current forces itself through the wheel, thus the air sneed twice, once while going in, again while going out, which gives a greater power in a compact form that is chean and practical for all light machinery, such as pumping water for farm use or railroads, or for any machinery whatever where less than a five-horse power is needed. You will find this Mill, in possessing several times the power of other mills of the same size, will be a greated vantage in light winds, as possessing more power, it will do the same sork in less wind. Persons desiring a windmill will be profited by calling at R. B. Young's Shop, 113 Spring Street.

Useful Hints. Tomatoes dipped in bread crumbs and browned in butter are a delicious

addition to the dinner. A fillet of veal stuffed with fine herbs makes an excellent foundation for a dinner, and if hicely browned and served hot, with brown gravy, it may well take the place of ckicken or

Lemon fritters are delicious. To one cup of milk and one egg allow the juice and pulp of one lemon. These may be served with sauce; in that case add the grated peel of half the lemon to flavor the sauce.

Giblet stew is a good supper or breakfast dish. Cut the giblets in small pieces, but do not chop them fine; cook in a little water, add a few pieces of cold boiled potatoes, and thicken the gravy with flour. If you like onion flavor, a few slices of onion will be sufficient to impart it.

Muffins without soda, if baked in a hot oven, will be light and excellent. Take one cup of sweet milk, one cup of flour, one egg well beaten, about a third of a teaspoonful of salt. Have your gem pans very hot; fill about half full and bake. These are nice with butter alone, or with maple sugar syrup added.

Cream cookies are made of one cup of sour cream, one cup of butter, two cups of sugar, two eggs, one teaspoonful of soda, flour enough to make a dough of medium body, neither as soft as possible to roll nor as hard. These may be rolled thin, and will be light and rich. Bake in a quick oven, but do not let them brown.

A pretty heading for a lace curtain, which is so simple as hardly to deserve to be called a lambrequin, is made of a piece of handsome goods used to cover furniture with. It may be of any width to suit your taste. The edges should be cut in points, and each point and the notch between the points should have a small tassel. These may be of silk, or they are very tasteful made of crewel, and then being picked out with a needle, so that they LA Limes, 2100 Mexican..... are soft and fluffy

The diamond slices with sauce, which are very nice as an entree or in the place of the pie, which is the ordi-nary finish for a plain dinner, are Emply plain cakes baked in diamond-shaped tins and sent to the table on fruit or very small sign plates with fruit or very small pie plates, with sauce poured over the slices. They

sauce poured over the slices. They should be almost as thin when baked as a slice of bread.

A delicious sauce may now be prepared for winter use; it is made of cranberries and raisms. To one quart canful of cranberry sauce allow one good handful of raisms; they impart a delicate flavor, which is a great improvement on the cranberries alone Cranberries are also excellent canned alone, with a little sugar, for pies and puddings. It is better to put them up early in the season, as there is like.
